NEW HAVEN, CONN.

Having lately added to our Electrotyping Department a good assortment of type from the well known foundries of Farmer, Little & Co., N. Y., and Phelps, Dalton & Co. of Boston, we are prepared to do all kinds of book work in the best possible manner, and at very reasonable prices. Our type is used exclusively for electrotyping and consequently will always give a sharp impression.

Wood cuts, labels, circulars, checks, &c., electrotyped and correctly mounted for printers' use. Binders' dies and color blocks made to order.

FOR NEWSPAPER ADVERTISING.

We would call the attention of advertisers and advertising agents to our Patent Metal Backed Electrotype, by the use of which the consumer makes a very great saving in postage and express charges. The construction of the cut is such that it enables us to combine lightness and strength.

Get our prices before placing your orders elsewhere and we will save you money. Estimates furnished by mail or upon application.

Lebosquet's

LOW PRESSURE

Steam Heating Apparatus.

The marked success which our Boiler and work have achieved, warrants the assertion that for thoroughness of construction, economy, and efficiency of operation, it has no equal in this country. Apparatus erected with low pressure, indirect radiation, dispensing entirely with Radiators in the apartments, locating the whole Apparatus in the basement; or by direct radiation, supplying heat from ornamented Radiators within the rooms. Either method employed to suit the wants and taste of purchasers.

Tour Portable Apparatus is most admirably adapted for Residences, School-houses, Banks, Stores, &c. It is compact, handsome in design, and moderate in cost.

Tour Pamphlets, with names of users of the Apparatus, furnished upon request.

INSTRUCTIONS TO KEY HOLDERS.

1. On the breaking out of a fire, notice should be immediately communicated to the nearest Alarm Box, Keys of which are always in the hands of the Police, and responsible persons in the vicinity of the

2. Key holders upon the discovery or positive information of a fire, will unlock the box, pull down the slide or hook once, and let go. This gives the desired alarm all over the city, repeating itself five times.

3. All persons giving fire alarms are requested to remain by the box a moment, and if no clicking is heard in the box, pull again; if you still hear no clicking, go to the next nearest box and give the alarm from that.

4. Never signal for a fire seen at a dis tance. Never touch the hook except to give an alarm of fire. Be sure the box is locked before leaving it. Give an alarm for no cause other than an actual fire. Do not give an alarm for a chimney.

5. Owners and occupants of buildings are requested to inform themselves of the location of the signal boxes nearest their property, also the places where the keys are kept. Be sure the alarm is properly given. One single stroke of the Alarm Bell and Engine House Gong is not given for an alarm

6. Alarms will be sounded on the Fire Bells thus: For box 5, five strokes, 1-1-1 1-1, with short intervals and repeating. For box 32, the strokes, 1-1-1, a pause, then two strokes, 1-1, a pause, and repeating. Alarms for other numbers are given in a like manner.

7. Ten successive strokes upon the Alarm Bells will be given as a signal for calling out the whole Fire Department.

CAUTION-Never pull the hook while the Alarm Bells or the Gong in the box are striking.

COLLEGIATE & COMMERCIAL INSTITUTE,

Nos. 15 and 17 Wooster Place.

The Institute offers courses of instruction in the Greek, Latin, English, German. French and Spanish languages; Mathematics and the Physical Sciences; in History, Moral and Political Science; and in Penmanship, Book Keeping, Drawing, Phonography, Reading and Elocution. The regular course in the department preparatory to Yale College, occupies three years; but full opportunity is allowed to those who can prepare more rapidly. No student is held or turned back in one of these studies for deficiency in any other; thus avoiding an evil that exists in schools, arranged on an annual plan of connected studies. There are special courses arranged for those who are to enter the Scientific School and for those who are to follow business pursuits. The unusual proportion of teachers to pupils, the larger range of studies, and the greater number of classes, formed to meet the wants of the students, make it possible to consult the taste and ability of each pupil, and to allow of his full progress, to a greater extent than can be done in schools whose classes are formed on an arbitrary system only. Parents will find in the instruction given in Military Drilling, Gymnastics, Swimming, etc., and in the ample grounds for out-door games under careful supervision, just the advantages for physical training and vigor, which boys in cities need. The Boarding Department is designed for pupils who do not reside with near relatives in New Haven, and to secure to them those family advantages and that paternal care and moral and religious discipline which their age so obviously demands.

The school was established in 1660.

Its chief design is to prepare boys for the Classical and Scientific Departments of Yale College.

For those living in New Haven and vicinity, the best time of entering is at the age of eleven or twelve.

The course of study embraces not only Latin, Greek and Mathematics required for admission to College, but all the common English branches.

Particular information can be obtained by calling for circulars at the city bookstores, or applying to

YALE BUSINESS COLLEGE.

Office, 37 Insurance Building, 890 Chapel St., New Haven, Conn.

DESIGN-To fit young men for business life.

HOW IT IS DONE—By a thorough theoretical course of study and by actual business experience in detail.

THEORY DEPARTMENT.

Double Entry Book-keeping, Business Correspondence, Penmanship, Arithmetic, Commercial Forms, Lectures on Business, Ethics and Commercial Law. After passing the required examination, the student enters the

PRACTICAL BUSINESS DEPARTMENT.

Here the student really engages in business. He buys and sells from and to his fellow students.

He makes and accepts drafts. He opens a bank account in the usual way. He gives notes and effects discounts, and after entering into co-partnership, and engaging in various kinds of business, he enters the business offices and works his way up to the position of cashier of the bank. He makes up his graduating papers, and after having passed a thorough examination, receives his diploma.

In connection is an English and Classical school for young men and boys.

COGSWELL'S

SCHOOL OF PHONOGRAPHY

811 Chapel St., New Haven, Conn.,

Affords the best facilities offered by any school in the country to those desiring to enter the profession thoroughly qualified in the shortest possible time.

Training individual till the principles are mastered, then students are classified according to their best interests. Each student is advanced as rapidly as his or

her progress will allow, but never at the expense of thoroughness.

Students do actual reporting from the beginning, taking the same dictations that will be given in business and other offices. Those who take an advanced course to train for professional reporting can have access to our various courts and a great variety of public speaking. Our facilities for training for this branch of professional work are unsurpassed. We make a specialty of securing good positions for our graduates. Correspondence solicited. Call or send for Circulars.

An Eight-Page Daily Paper, the Daily Union has the largest circulation of any paper in the city of New Haven, receives the full dispatches of the Associated Press, and is universally acknowledged to be the best local paper in the city. Circulation in Meriden 1500 copies.

The Sunday edition of the Union is the leading Sunday paper in Western Connecticut, and has a very large circulation. All the matter is specially prepared for this paper with the greatest care. Its sales on the streets of New Haven alone are about 5,000 copies, besides what are delivered by carriers at the residences. Our Sunday edition also goes into six of the eight counties in the State, viz: New Haven, Middlesex, Litchfield, Fairfield. Windham, and New London. It is served by carriers and sold on the streets by newsboys in all the towns and cities northward to Meriden, southward to Bridgeport, eastward to New London and westward to Winsted, comprising altogether about forty places. As an advertising medium it is unequaled in the State.

The Weekly Union is published on Thursday morning, and is made up from the Daily and Sunday editions of The Union. It is in every respect a family paper, and besides containing all the news of the week has a liberal amount of choice miscellany, stories, reading for farmers, etc. Price \$1.00 per year, postage prepaid.

Specimen Copies sent free of charge.

GEO. D. SEYMOUR. SOLICITOR OF PATENTS AND COUNSELOR IN PATENT CAUSES.

81 Church St., Connecticut Savings Bank Building, New Haven, Ct.

Opinions involving questions of validity and infringements rendered, interference and infringement proceedings conducted, rejected applications prosecuted, licenses and contracts prepared, and other work relating to patent matters attended to at charges proportionate to the service rendered. An estimate will be given as each matter may be submitted.

For the past five years the subscriber has been in the Patent and Law Offices of Henry A. Seymour, Esq., of Washington, D. C. In this connection he had the opportunity of following an extensive and varied Patent practice, and of acquiring a familiarity with the Patent business such as only an extended residence in Washington and daily visits to the Patent Office can give.

as only an extended residence in Washington and daily visits to the Patent Office can give. Having terminated this engagement, he offers his services to the public as Attorney and Solicitor in Patent cases. He will make trips to Washington as occasion may require; and further, Mr. Henry A Seymour will act as Associate Attorney to attend the prosecution of cases before the Patent Office when necessary. Clients are thus insured the twofold advantage of personal interviews with their attorney and a resident representative at Washington. GEO. D. SEYMOUR.

I refer by permission to Hon. M. D. Leggett, Cleveland, Ohio, formerly Commissioner of Patents, now President of the Brush Electric Company; Hon. Ellis Spear, Washington, D. C., formerly Commissioner of Patents; Hon. V. D., Stockbridge, Washington, D. C., late Assistant Commissioner of Patents; Hon. Wm. H. Doolittle, Washington, D. C., late Assistant Commissioner of Patents;

Miss L. B. NETTLETON.

SAWS OF EVERY DESCRIPTION.

No. 4 P 5

This Saw combines the latest and most valuable improvements in Hand Saws. The position of the handle and manner of attachment render the blade stiffer and less liable to buckle, admitting of the full sweep of the cut without possibility of catching in the work. The position of the heel, with the steel passing entirely around the hand piece, renders the handle less liable to break. In consequence of these improvements this saw will "hang" better in the hand and work with greater ease. It is warranted unequaled in utility and quality. All these new features are patented.

Price List on application.

In calling attention of the trade to our new saw No. 4 25, we would say, we are much gratified by the favor with which our Hand Saws are received by the trade and mechanics generally, and wish to assure our friends that the high standard and reputation of our goods will be fully maintained.

BLACKMAN'S PATENT

POWER, VENTILATING, EXHAUST OR BLAST WHEEL

ITS WONDERFUL ABILITY IS DUE TO THE PERIPHERAL FLANGE

The Blackman Wheel is the only exhaust or blast wheel (or fan) known which takes in air at right angles as well as parellel with its axis or shaft. The Peripheral Flange in the Blackman Wheel gives it an additional feed or supply area of sixty-five (65) per cent, greater than any other form of wheel. The amount of air moved and power required has relation to the area of the feed and delivery surfaces, orifices in any and all air moving machines. The entire surface of the Blackman Wheel, front and back and sides, is either feed or delivery, and therefore giving the greatest volume at the smallest outlay of power.

The Peripheral Flange—a new principle.

Patented throughout the world.

SEE TABLE BELOW.

Being constructed on this new principle, it makes now possible for the first time, the economical and satisfactory ventilation of

PUBLIC HALLS, BANKS, THEATRES, GRAIN ELEVATORS, FLOUR MILLS, FACTORIES, PAPER MILLS, MALT HOUSES, VESSELS, BREWERIES, MINES, HOTELS, RESTAURANTS, ENGINE ROOMS, LAUNDRIES, PRINTING OFFICES, SEWERS,

And any place where it is desirable to remove foul or hot air, smoke, steam, gas or other objectionable matter, and also to lower the temperature of any room or building.

Because of these new factors possessed by the Blackman Wheel, air is moved at the rate of 16,000 cubic feet per minute, or nearly one million per hour for each actual horse power employed.
